Frequently Asked Questions

Here are answers to the most common questions our clients ask before starting their projects.

*Clear Answers.
Strong Relationships.*

General Questions

01

What services do you offer?

I offer complete web solutions including website design, development, eCommerce, maintenance, SEO, domain, hosting and email setup.

02

How long does it take to complete a website?

It depends on the project. A basic website takes 5-7 days, while complex websites or eCommerce stores may take 10-20 days.

03

What are your payment terms?

I take 50% advance to start the project and 50% after completion before final delivery.

04

Will my website be mobile responsive?

Yes, all websites I design are 100% responsive and work perfectly on all devices.

05

Can I update my website content myself?

Yes, I build websites with user-friendly dashboards so you can easily update content, images, and pages.

06

Do you use templates or custom design?

I create 100% custom designs tailored to your business needs. No copy-paste templates.

07

Will my website be SEO friendly?

Yes, all websites are built with SEO best practices to help you rank better on search engines.

08

Do you provide domain and hosting?

Yes, I can help you buy the best domain and hosting and handle the complete setup for you.

09

Do you provide support after website delivery?

Yes, I provide free support for a limited period and paid support plans are also available.

10

Can you redesign my old website?

Yes, I can redesign your website with a modern look, better performance and improved user experience.
